INTRODUCTION

People are motivated to volunteer for a multitude of reasons and find ways to connect with nonprofits in a variety of ways under normal circumstances. In response to the COVID-19 pandemic Volunteer Houston reached out to the general volunteer community in the greater Houston, Texas area in April and May of 2020 to understand how the global pandemic has affected their desires and motivations to volunteer.

PERMISSION TO DUPLICATE OR REFERENCE findings and content from this summary of survey results is granted on the condition that a reference to “Volunteer Houston, a program of Interfaith Ministries for Greater Houston” with a link to www.volunteerhouston.org is included in the reproduction or reference.

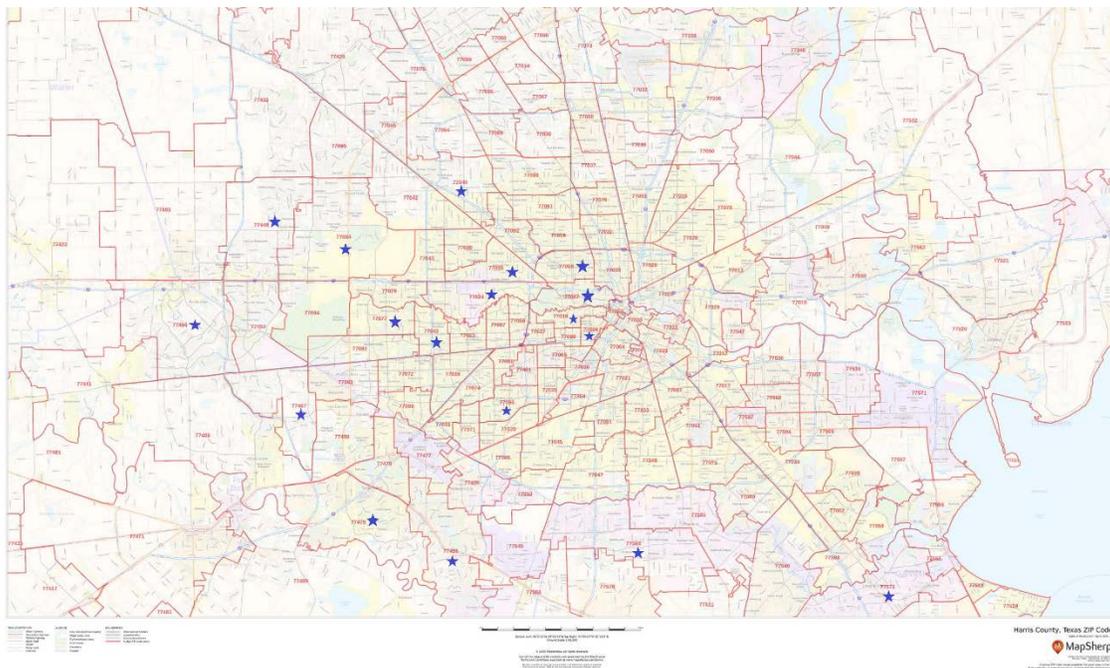

RESPONDENTS

Volunteer Houston promoted this online survey by emailing tens of thousands of volunteers registered in our database, posting on our social channels and asking our nonprofit member organizations to share the survey link with their own volunteers.

A total of 1,753 people responded to the survey. Based on their self-reported zip codes 1,677 are from Texas – the large majority of which are from the Houston, Texas and Harris County areas.

Zip codes with the highest numbers of respondents are as follows:

FINDINGS + ASSUMPTIONS

- Most volunteers (48%) want to volunteer **for more than one organization**.
- Changes in volunteer frequency before and after the pandemic are as follows:

	BEFORE	AFTER	CHANGE
Daily	4.9%	5.3%	0.5%
Weekly	25.0%	17.2%	-7.8%
Monthly	23.2%	15.5%	-7.7%
Bimonthly	8.6%	11.5%	2.9%
1-2/year	22.5%	31.5%	9.0%
3+/year	15.9%	19.1%	3.2%

- Most respondents volunteered weekly (25%) before the pandemic, but only 1-2 times per year (31.5%) after the pandemic. However, of those who volunteer 1-2 times per year **before and after** the pandemic we found the largest change of respondents – an increase of 9%. In other words, the majority of those who are willing to volunteer 1-2 times per year are 9% more likely to volunteer in the wake of a pandemic.
- On a scale of 1 – 100, respondents rate their comfort level with **in-person** volunteer experiences at 46 on average.
- On a scale of 1 – 100, respondents rate their comfort level with **virtual/remote** volunteer experiences at 81 on average.
- On average Houstonians who enjoy volunteering and were prepared to give **7.3 hours per month before** the pandemic and **6.3 hours per month after** the pandemic to support the needs of nonprofit charitable agencies in our area.
- Changes in the number of hours volunteers could dedicate to volunteering on a monthly basis before and after the pandemic are as follows:

	BEFORE	AFTER	CHANGE
0 hrs	1.8%	13.9%	12.1%
1-3 hrs	23.8%	20.8%	-2.9%
4-10 hrs	42.2%	34.1%	-8.1%
11-20 hrs	18.4%	16.5%	-1.8%
21+ hrs	13.6%	14.4%	0.8%

- **Most respondents dedicate 4-10 hours per month to volunteering both before and after the pandemic.** However, we found a decrease (-8.1%) within the majority. The largest increase and overall change in number of monthly volunteer hours is found within the group of respondents who dedicate zero (0) hours to volunteering both before and after the pandemic. In other words, there was **an increase in the number of volunteers who are choosing not to volunteer at all after the pandemic.**
- Of those not willing to volunteer at all (0 hours) there is the highest increase (12.1%). And of those willing to volunteer any number of hours (1 or more) we found a decrease of 12%.
- **While individuals have much more time on their hands as they work and stay at home, we have not yet found ways to mobilize them to perform volunteer service in greater numbers.** There is pent-up willingness to volunteer when health and safety are less of a concern and we should plan for that resurgence of service.
- **The most significant distractions from volunteer service currently are** the safety concerns surrounding COVID-19, looking for a new job, underlying health conditions, nonprofits closing, fellow residents not taking social distancing seriously and shelter in place orders.

“Due a to medical condition it would be a health risk for me to volunteer.”

“More workload and less time to even be able to volunteer.”

“Shelter in place orders makes it a little more difficult for some of the ways I previously volunteered.”

“I am not as eager to do any volunteering unless it is virtually.”

“I felt it was unsafe for me to continue volunteering, even with the increased hand washing and social distancing measures.”

“People are not taking social distancing seriously”

“Due to my asthma I have been afraid to come in contact with those outside of my home.”

“The needs of 37 million unemployed.”

- Creating opportunities that overcome personal concerns and objections offer the opportunity to attract and retain an upswell of volunteerism now and in the future.

QUALITATIVE RESPONSES

The following assumptions are based on the methods and codebook summarized and prepared by Rachel Cominsky, MPH Candidate at Gillings UNC Chapel Hill.

Methods | In order to create key takeaways from the open-ended questions posed in the survey, I used qualitative coding methods to analyze questions #5, 7, 10, and 12. Below is the step by step process I took. I am recalling this process for transparency and potential replication.

1. Topical code creation: Based on the open-ended questions asked in the survey, I created topical codes to reflect the potential outcomes of answers solely based on the content of the questions (without looking at the answers). The topical codes are listed per question in the table below.

#	Question	Responses	Topical codes
1	What type of volunteer are you? (Other responses)	75	
5	Please share your reasons for your answer to the previous question (comfort scale with in-person volunteer opportunities during COVID-19)	1,269	Comfort volunteering in-person Discomfort volunteering in-person
7	Please share your reasons for your answer to the previous question (comfort scale with virtual volunteer opportunities during COVID-19)	1,064	Comfort with virtual volunteering Discomfort with virtual volunteering
10	How have you been affected by the coronavirus?	1,149	Positively affected Negatively affected
11	What is your relationship with Volunteer Houston? (Other responses)	92	
12	In your own words tell us how the pandemic has changed your volunteer efforts	1,010	Increased volunteer efforts Decreased volunteer efforts No change

- After looking at the survey questions and creating topical codes, I went through the open-ended questions and took notes based on responses. I used these notes to create interpretive codes that represent the interpretive ideas in the data. Many of these are not associated with just one question. Interpretive codes are listed in the codebook below underneath their corresponding topical codes.
- Using Nvivo, a qualitative coding software package, I inserted my topical and interpretive codes as “nodes” and added a description to create my codebook. Using the codes, I proceeded to code the results from the Volunteer Houston survey. It is important to note that I was unable to code every single response due to time restrictions. I used a sample size calculation to find a representative sample number for each question. I then coded a proportional number of responses on each page in order to encourage randomization. I coded 296 responses for question 5, 283 for question 7, 289 for question 10, and 270 for question 12.
- After coding a representative sample of responses, I was able to create multiple tree maps, charts, and word clouds to visually represent the data.

Findings

- We see a similar number of respondents feel discomfort volunteering in person as those that feel comfort and safety volunteering virtually. *Figure 1*
- Of those who feel comfort and safety volunteering virtually, a much smaller subset feels prepared with the right equipment and/or skills to volunteer virtually. *Figure 2*
- Most respondents have work, unemployment and home on the top of their minds and see these as priorities over or distractions from volunteering. *Figure 3*
- Many volunteers are less inclined to volunteer in the wake of the pandemic. Additionally, nearly the same number of volunteers have neutral feelings toward volunteering in the wake of the pandemic. Thus, there is a high potential for nonprofits to motivate the neutral volunteers to find and respond to volunteer needs during this time. *Figure 4*
- Most volunteers see the following as barriers to volunteering listed as highest to lowest: lack of opportunities, safety concerns, dependent on requirements to volunteer, not enough time, and lacking the appropriate skills. Nonprofits should address these concerns to lift the barriers allowing volunteers to follow their passions. *Figure 5*

VOLUNTEER HOUSTON BACKGROUND

Mission: Connect individuals, groups and companies with nonprofit agencies to transform the greater Houston community for good through volunteerism.

As the leading volunteer center in the Texas Gulf Coast Region since 1974, Volunteer Houston (VH) works diligently to effectively engage the community in the spirit of service of volunteerism by connecting people to their passions. VH empowers its 350+ active nonprofit member agencies and 12,000+ active volunteers to improve the lives of everyone in the region through progressive outreach efforts and a community role as a conduit for volunteering.

VH's powerful, ever-expanding volunteer connection database and growing number of vital connections to Points of Light, the City of Houston Mayor's office, Harris County, Volunteer Organizations Assisting in Disaster (VOAD) and more are making it easier than ever before for volunteers and agencies alike to work together to help make Houston greater.

VH works with nonprofit organizations to identify their most pressing needs, creates projects to bridge the gaps, and recruits, and deploys individuals and teams of volunteers to make a difference. In addition to connecting volunteers with causes about which they are passionate, VH also offers a rapidly growing lineup of direct outreach and corporate, community and disaster response/recovery service programming, all with the primary mission of providing solutions to some of the challenges faced by the community.

Volunteer Houston is the Points of Light affiliate for Houston, Texas.

INTERFAITH MINISTRIES FOR GREATER HOUSTON BACKGROUND

Interfaith Ministries for Greater Houston (IM) is Houston's oldest and largest interfaith social service agency, having served the community for over fifty years. IM's mission is to bring people of diverse faith traditions together for dialogue, collaboration and service, as a demonstration of our shared beliefs. IM has four core programs: Meals on Wheels/Animeals, Refugee Resettlement, Interfaith Relations and Community Partnerships (IRCP), and Volunteer Houston.

Meals on Wheels/Animeals: IM is the largest provider of Meals on Wheels in the state of Texas, and one of the five largest providers in the nation. It serves most of Harris and Galveston County, as well as parts of Liberty and Montgomery counties. Last year alone, IM delivered meals and more to over 4,300 homebound seniors and adults with disabilities each weekday. The program also delivers breakfast and frozen weekend meals to the frailest and most isolated seniors. IM's trained drivers are often the only regular visitor the senior receives, and they are trained to check on the senior's well-being and to refer any other needs back to IM's caseworkers. Over ten years ago, IM added the Animeals program when drivers discovered that many seniors were giving their meal or sharing it with their pets. Animeals provides free pet food once per month to the dogs and cats of seniors who have pets, feeding over 1,200 dogs and cats.

Refugee Services: IM's Refugee Services department- in conjunction with the U.S. State Department and Episcopal Migration Ministries - resettles legal refugees fleeing political, social or religious persecution. Last year, IM resettled over 300 refugees from around the globe and provided support services to over 900 refugees already living in Houston. The goal is to make these new neighbors feel welcome, while helping them become self-sufficient and productive members of the community within six months.

Interfaith Relations and Community Partnerships: The recently expanded Interfaith Relations and Community Partnerships (IRCP) program fosters understanding, respect and engagement among people of all faiths through educational opportunities and community service. IRCP also connects nonprofits, congregations and government agencies to build a climate that fosters respect for neighbors.

Volunteer Houston: The services of Volunteer Houston (VH) have been integrated into the IRCP department, as a natural extension of its work in connecting individuals and groups for community service. VH connects volunteers with nonprofits to address community needs, thereby increasing the capacity of the nonprofits and the impact on our community. In 2019, VH filled 72% (15,034) of volunteer opportunities posted on the VH online portal.

92	Don't know if other people will be obeying the mask rules. Don't know where other people and the things that we will be touching have been. Also feels like the organizations I've seen on tv already have plenty of people volunteering and don't need more. And part of it too is that I'm busy with a bunch of new things that have come up that if I were to go outside it would be to earn money not necessarily to volunteer.	5/4/2020 5:11 PM
93	I have an underlying health condition and don't currently have a mask	5/4/2020 5:10 PM

Currently, the financial situation at my family is not well, so I cannot afford it right now.	5/3/2020 9:56 PM

283	I like to help people, but unfortunately I've been laid off work and am currently looking for full time employment.	5/2/2020 5:21 PM

286	Safety	5/2/2020 4:52 PM

288	I have found that many organizations are not being clear in their communications as to how they are protecting their volunteers or if they are providing necessary supplies to protect them while on duty. This has made me insecure about volunteering given the level of concern for spread of the virus. Another reason is that I must maintain contact with my mother who is over the age of 65, so exposing myself poses a health risk for her.	5/2/2020 4:42 PM
289	Comfortable pending different safety precautions	5/2/2020 4:32 PM
290	I am healthy, strong and level headed. I will take precautions. I cannot find places to volunteer right now, or I would.	5/2/2020 4:30 PM
291	I have other skills, such roles as trained Voice Talent (Voice Actor and Voice Over Artist, Narration and Producer), Actor, Administrator, Marketeer, Fundraiser, Writer (including content creation and copy writing), Organizer, event planner, and general administrative/paraprofessional, that I believe would be of use that is just as impactful. Additionally, I am completing my undergrad currently in Psychology with focus on becoming an Organizational Psychologist. I don't believe scientific, medical or political professionals alike know enough about the covid19 virus to determine that right now is a safe time to reopen everything and begin face-to-face anything. It seems there are new revelations about this virus weekly, almost daily, which speaks to caution in my book. So volunteering as usual (which means working in close physical proximity with those in need as well as fellow volunteers serving right beside me) doesn't seem like a safe option for right now and maybe for the next five months since they have already started reopening things which means a second wave is coming. For right now and the next several months, I do very much welcome any volunteer opportunities in line with the skillsets I mentioned above as they can be performed not just remotely but virtually as well. Thank you so much for all you do! ♥	5/2/2020 4:26 PM
292	I am comfortable with in person volunteering if the organization takes proper precautions to protect their volunteers	5/2/2020 4:10 PM

296	Humans have not overcome COVID-19, yet, and I'd hate to spread it to others.	5/2/2020 3:59 PM
297	I will be more comfortable to go out when the work from home order is lifted, our church of 15K plus members resume regular service, and we have two consecutive weeks of decreased deaths and number of covid diagnoses per day.	5/2/2020 3:59 PM
298	My husband has a compromised immune system and has been advised by his doctors not to venture outside the home. Therefore, I'll not place his health at risk for the virus.	5/2/2020 3:56 PM

304	Depends on who I'm helping and how closely the proximity is. For the most part I'm not that worried about it.	5/2/2020 3:27 PM
305	It depends on the nature of the volunteer work. For now, I volunteer my time by providing contactless grocery delivery to at-risk populations in my neighborhood. 331	I think that even after the country re-opens, the virus will still linger. It will still exist. This is the time volunteers are needed most. 552	As long as there is minimal contact and face masks, we generally should be fine. Houston isn't hit as hard as some other places.	4/29/2020 11:31 AM
553	With so much information and misinformation being shared it's sometimes confusing.	4/29/2020 11:27 AM
554	as long as basic protocols like safe space distancing and masks are used I feel perfectly safe with in person volunteering.	4/29/2020 11:21 AM
555	I'm in healthcare, so I have a good chance of being infectious, so hesitate to volunteer.	4/29/2020 11:17 AM
556	This is the time when volunteering means more. I actually feel a stronger urge to volunteer now than usual. I want to know I can make a small difference to the world around me. Right now, even a little help makes that difference	4/29/2020 11:14 AM

560	Because of the social distancing measures, I prefer to volunteer as a online tutor	4/29/2020 10:33 AM
561	I have Lupus, which makes me high-risk, but I have been exposed to COVID and did not catch it. I believe that rigid adherence to PPE allows anyone to be exposed without becoming infected.	4/29/2020 10:21 AM

574	I feel we need to, intelligently as possible, deal with the reality that we may be living with Covid-19 for quite some time. We need to be very careful when we we open up and what areas are opened up. I volunteer Fira museum. A lot of it is interactive. I doubt we will be effective as a learning based organization. It will depend more on how the public reacts to our opening. And we'll need to keep a careful eye on the progress of Covid-19 as well.	4/29/2020 9:26 AM
575	I have infants in the family and would not want them to catch anything	4/29/2020 9:24 AM
576	I live in NYC. Our numbers are high. Going anywhere (including the grocery store) involves high levels of anxiety. Some people follow the guidelines. Some do not. And the rest of us should not have to suffer because they don't want to play by the rules. It is infuriating and selfish.	4/29/2020 9:21 AM
577	I am admittedly probably a little more drawn to risk, but I also take a lot of precautions.	4/29/2020 9:17 AM

587	Safety concerns about being around other volunteers and the public.	4/28/2020 3:17 PM
588	As long as the organization are taking the necessary precaution, it is safe to volunteer especially since there is no cure and no one knows how we really catch it	4/28/2020 3:12 PM
589	I'm a single parent of two and my family needs my health 100%	4/28/2020 2:45 PM

593	I will not live in fear	4/28/2020 11:42 AM
594	Close proximity to clients from out of town. Risks to all parties.	4/28/2020 11:40 AM
595	Dude to my age and my husband's health I have not vol. My children are very concerned for us as well.	4/28/2020 11:14 AM
596	I need to protect my health	4/28/2020 10:28 AM
597	I'm over age 70	4/28/2020 10:25 AM
598	Well. the virus seems to spread easily. But, I have a fairly robust immune system. I am 66, but do not have any of what the health community call the Big 3. I think volunteering is very important and I want to help. I am volunteering this wk at Houston Food Bank warehouse. Limited no. of volunteers, wearing masks, sanitizing often.	4/28/2020 9:59 AM

602	I am concerned, but I feel that I am responsible for myself and my comfort zone and could control my staying at the volunteer site or leaving. Pay attention and take responsibility for myself, if not comfortable with surroundings or preparation of the volunteer activity, I would leave.	4/28/2020 7:46 AM

605	Social Distance is possible but have found that we congregate in circles after a while	4/28/2020 7:21 AM
606	I am in the high risk group due to underlying health issues.	4/28/2020 7:12 AM
607	Working in the public is always risky because I know not everyone is performing good practices, such as properly washing hands.	4/28/2020 6:32 AM
608	Houston foodbank has been very diligent on CDC guidelines	4/28/2020 5:39 AM
609	Because nothing has changed. We just have to take precautions and realize people are still vulnerable and need our help	4/28/2020 2:52 AM

623	Feeling safe myself as a young person, but worried about keeping my family safe	4/27/2020 6:59 PM
624	I am not comfortable because the CDC recommends staying home as much as possible, and keeping a safe distance from other people. If volunteering is essential and will help save lives, I would do it, but still not feel comfortable doing so.	4/27/2020 6:58 PM

649	Age and heart condition.	4/27/2020 3:13 PM
650	I would love to help out and volunteer. However, I feel in light of this pandemic you are helping out by not spreading the virus by staying socially distant and minimal contact for necessary items like food, medications, supplies. Also my mother has a weak immune system as she gets sick very easily so I would prefer to not have contact or leave unless mandatory/emergency reasons. Another thing is that I love to volunteer for places like hospitals and medical supplies distribution centers which at this current state and time is best to stay away from unless you are medical personnel.	4/27/2020 3:05 PM

657	I have a baby at home	4/27/2020 2:30 PM
658	I'm in quarantine	4/27/2020 2:27 PM
659	In-person volunteer events will further spread the virus if people are sick unknowingly. We are supposed to limit any unnecessary contact, and while there are organizations that need my help, I cannot help anymore if I get sick.	4/27/2020 2:25 PM

I take this seriously, but would be willing to volunteer for an organization that also took it seriously and offered PPE and/or 6 feet distancing, etc. I would want to be smart about it, but, as a person of faith, if I felt called to have direct contact with people I would do it. For instance, I feel called to death ministry, and though I am not actively involved in caring for the dead yet, I would be willing to mask up, put on gloves, etc. and wash or prepare (naturally, not with embalming) the body of someone who died of COVID if that were something that was needed. I helped a friend with a home funeral, and am familiar with using dry ice to keep a body cold, etc. I would be willing to do this in spite of the small risk. Even with guarantees that volunteers will distance 6 feet away from each other, there are a number of variables that affect probability of acquiring an infection: Are all personnel (staff + volunteers) *required* to wear a mask? How small is the facility/room that we'd be in? How many people total pass through the room we'd be in? How frequently is the room—particularly the floors—cleaned? 38	I have never done this before but I am interested	5/5/2020 6:18 AM
39	Sometimes I bring work home with me, so it's kind of like working remotely at times. I like that it's quiet and I can pace myself.	5/5/2020 3:15 AM
40	I put it because it depends on the work that I am getting.	5/5/2020 2:55 AM
41	I am disabled and immunocompromised and thus at a very high risk for COVID19.	5/5/2020 2:46 AM

74	I can sort of control my environment from here.	5/4/2020 5:44 PM
75	My only reason to be hesitant for virtual volunteering is the fact that I'm a full time student from now through summer and the fall, so my time is mostly used for that. 259	I have other skills, such roles as trained Voice Talent (Voice Actor and Voice Over Artist, Narration and Producer), Actor, Administrator, Marketeer, Fundraiser, Writer (including content creation and copy writing), Organizer, event planner, and general administrative/paraprofessional, that I believe would be of use that is just as impactful. Additionally, I am completing my undergrad currently in Psychology with focus on becoming an Organizational Psychologist. I don't believe scientific, medical or political professionals alike know enough about the covid19 virus to determine that right now is a safe time to reopen everything and begin face-to-face anything. It seems there are new revelations about this virus weekly, almost daily, which speaks to caution in my book. So volunteering as usual (which means working in close physical proximity with those in need as well as fellow volunteers serving right beside me) doesn't seem like a safe option for right now and maybe for the next five months since they have already started reopening things which means a second wave is coming. For right now and the next several months, I do very much welcome any volunteer opportunities in line with the skillsets I mentioned above as they can be performed not just remotely but virtually as well. Thank you so much for all you do! ♥	5/2/2020 4:26 PM

698	Yes	4/23/2020 6:30 AM
699	My husband and I both now work entirely remotely. Because I am needed at property in another state and he is needed to care for our home, we have lived apart since mid-March. Shopping for necessities has become a challenge. I believe it is important to help by making as many cloth face masks as I can and giving them free to those who need them. However, I feel stressed by time pressures to fulfill professional and personal responsibilities while also sourcing face mask supplies, making masks, and getting to the post office to mail masks. Watching or reading news makes me very anxious. The news also angers us because of the frank ineptitude of the occupant of a large white house located in a non-state on the east coast and his sychophants. For a country that is supposedly the last remaining "superpower," we have performed abysmally in this crisis. Never, ever, did I think I would live to hear an elected leader dare to suggest that the elderly should sacrifice themselves as the alter of profit. How have I been affected? I am worried, anxious, frustrated, ashamed, exhausted, angry, and I get up every morning and try again. And every evening, I am worthless after dinner. This is not who I am. This is not who we are.	4/23/2020 6:18 AM

927	So far my close friends and family have been physically safe. Several friends and possibly my spouse may have had mild cases, but due to a lack of testing, we don't know. If my spouse did have it, I also had an even milder version with a fever but no cough. My spouse's cough lasted for over two weeks. We are financially secure because my job is now virtual and my spouse is a graduate student, so they will still be able to work towards their degree.	4/20/2020 11:27 AM

"No one helps in a crisis if they make themselves a casualty." I would be glad to do driving right now if someone needs Delievery. Working in a good kitchen, like I was before, and working with hundreds of homeless is not a reasonable option for my wife and I given our risk factors. Not yet anyway.	4/20/2020 10:52 AM

15	I used to volunteer at a nursing home with my therapy dog; that stopped because of his death prior to the pandemic, but I had hoped to train my new dog for the work. But now it is not only impossible to do the in-person training certification needed for the dog, but it's also unlikely that volunteer visits to nursing homes can resume safely anytime in the near future. I also used to volunteer at a local animal shelter 1 to 2 days a month, walking shelter dogs, but with the shelters closed to volunteers, I have not been able to do that. But I have fostered a shelter dog, so that is something positive I'm only able to do because of the stay-at-home order (normally, I travel too frequently to foster).	5/5/2020 4:16 PM

246	I have other skills, such roles as trained Voice Talent (Voice Actor and Voice Over Artist, Narration and Producer), Actor, Administrator, Marketeer, Fundraiser, Writer (including content creation and copy writing), Organizer, event planner, and general administrative/paraprofessional, that I believe would be of use that is just as impactful. Additionally, I am completing my undergrad currently in Psychology with focus on becoming an Organizational Psychologist. I don't believe scientific, medical or political professionals alike know enough about the covid19 virus to determine that right now is a safe time to reopen everything and begin face-to-face anything. It seems there are new revelations about this virus weekly, almost daily, which speaks to caution in my book. So volunteering as usual (which means working in close physical proximity with those in need as well as fellow volunteers serving right beside me) doesn't seem like a safe option for right now and maybe for the next five months since they have already started reopening things which means a second wave is coming. For right now and the next several months, I do very much welcome any volunteer opportunities in line with the skillsets I mentioned above as they can be performed not just remotely but virtually as well. Thank you so much for all you do! ♥	5/2/2020 4:26 PM

347	More cautious	4/30/2020 12:34 PM
348	I have always enjoyed volunteering. Do not think COVID has changed this for me.	4/30/2020 12:14 PM
349	Staying safe	4/30/2020 12:05 PM
350	I'm not leaving the house nearly as much and keeping contact to a minimum.	4/30/2020 11:08 AM
351	Pandemic has changed my efforts due to not knowing who have or have not contracted the virus. I don't feel safe	4/30/2020 11:02 AM
352	Much less person to person contact due to safety/health concerns.	4/30/2020 10:55 AM
353	They had been canceled	4/30/2020 9:49 AM
354	I don't see the same opportunities. My preference is to volunteer on outdoor or sporting events, like tournaments and marathons. Nearly all of these are canceled now.	4/30/2020 9:02 AM
355	Afraid of catching the virus	4/30/2020 8:51 AM
356	I can't go out, so I don't really know how to help. I am willing. :)	4/30/2020 6:58 AM
357	Mad me want to volunteer more	4/30/2020 5:52 AM
358	Difficult because I have an autoimmune disease that puts me at risk for coronavirus.	4/30/2020 3:48 AM
359	Because of the warnings and my age in spite of my basically good health I am afraid to volunteer too much because I might die	4/30/2020 3:04 AM
360	I haven't decided to go back to volunteering yet. Maybe in the near future, "near" being relative.	4/30/2020 12:32 AM
361	.	4/29/2020 11:48 PM
362	I haven't volunteered since the pandemic began, which is much different than before	4/29/2020 10:47 PM
363	Since there has not been anything to volunteer for that I usually volunteer at I have not volunteered during this pandemic.	4/29/2020 10:32 PM
364	it has not, its all about service to humanity	4/29/2020 10:22 PM
365	I have been at home with children and my routines are completely different. Volunteering is something we can think more about doing once school has finished.	4/29/2020 10:10 PM
366	I don't seem to have a lot of mental capacity/energy lately	4/29/2020 9:35 PM
367	I keep looking for opportunities like distribution of supplies but dont find anything online. I haven't checked volunteer Houston's website. I got an email from baker Ripley but there were no volunteer ops listed, unless I missed an email. I've signed up on Nextdoor on the help map incase anyone in my neighborhood needs help. Other than that just making sure my mother stays at her house and getting her groceries and things when needed.	4/29/2020 9:32 PM
368	All now via phone or Zoom or email	4/29/2020 8:57 PM
369	Too old for face to face.	4/29/2020 7:20 PM
370	Unable to volunteer	4/29/2020 7:00 PM
371	It has changed my sleeping and eating patterns this in turn affects my livelihood.	4/29/2020 6:09 PM
372	Fear	4/29/2020 5:53 PM
373	It has given me a better understanding of meeting people's needs	4/29/2020 5:48 PM
374	Not much	4/29/2020 5:17 PM

Volunteer Impact Amid COVID-19

375	The pandemic didn't change my volunteering efforts or loving spirit,no because, just like nurses and doctors if I could I would also put myself in the front line as a doctor for instance to heal them. My efforts cannot change because I will be helping disaster affected communities. A storm may return or an earthquake,so I'm like a soldier going to war. I have always sacrifices to clean,cook or other in my volunteering experience	4/29/2020 5:17 PM
376	It has slowed them down just because many of the opportunities that I had engaged with in the past are no longer there	4/29/2020 5:10 PM
377	Inability to volunteer	4/29/2020 4:47 PM
378	No more school organized events	4/29/2020 4:46 PM
379	It is especially difficult since we work with a very vulnerable population already - so things get extra tricky when trying to support others from a distance in a meaningful way.	4/29/2020 4:46 PM
380	Simply put, I want to volunteer more.	4/29/2020 4:41 PM
381	I am volunteering more now throughout the week which I normally would not have been able too. The pandemic has increased my volunteer efforts especially at times I normally could not do.	4/29/2020 4:30 PM
382	It hasn't yet but this survey will make me check for opportunities	4/29/2020 4:29 PM
383	Will chose opportunities that allows social distances	4/29/2020 4:29 PM
384	I have not sought as many additional opportunities due to the risk and having my husband home. My current volunteer job is being continued online.	4/29/2020 4:16 PM
385	Have considered volunteering for Houston Food Bank but concerned about exposure to other volunteers.	4/29/2020 4:12 PM
386	Have not been volunteering as need to homeschool kids	4/29/2020 4:10 PM
387	I haven't volunteered since the shelter in place. My program has suspended operations	4/29/2020 4:08 PM
388	It hasn't	4/29/2020 4:04 PM
389	Limited types of volunteering	4/29/2020 4:01 PM
390	I have a better sense of understanding of who I am and I am enjoying things better and looking on the positive side of things and spending time reading books and walking and just trying to take care of myself better.	4/29/2020 3:47 PM
391	The volunteering is for me and them.	4/29/2020 3:42 PM
392	I feel like the need for food will be accelerated greatly this year.	4/29/2020 3:32 PM
393	People are afraid to go out and volunteering for the fear of being or getting infected.	4/29/2020 3:22 PM
394	Need more virtual Opportunities	4/29/2020 3:22 PM
395	I wear PPE and don't interact with people.	4/29/2020 3:16 PM
396	Scared to go out in public	4/29/2020 3:13 PM
397	Have been volunteering solely at one agency as other places are closed.	4/29/2020 3:12 PM
398	Once stay at home is lifted will still practice social distancing and will wear a match.	4/29/2020 3:10 PM
399	Previously I volunteered with the Astros Foundation which always has a number of weekly functions. Also, I volunteered to transport rescue/shelter animals to various cities. However, Louisiana was one of the closer places I could help out with. With the quarantine, though, the transports are not running very often.	4/29/2020 3:06 PM
400	Volunteering less	4/29/2020 3:05 PM
401	Gave me time to think about volunteering again	4/29/2020 2:54 PM
402	Panic over not helping enough.	4/29/2020 2:52 PM
403	It hasn't been a priority. Taking care of basic needs has been my priority.	4/29/2020 2:51 PM

Volunteer Impact Amid COVID-19

404	I have no immediate plans to volunteer for any organization.	4/29/2020 2:51 PM
405	It has stopped it.	4/29/2020 2:46 PM
406	Due to work, I don't have extra hours to volunteer. Church is closed, there are fewer opportunities.	4/29/2020 2:43 PM
407	It's had a small effect. Our busy time is in the winter and spring	4/29/2020 2:42 PM
408	I want to help fight this pandemic any way I can. If all that means is sweeping floors to free up a more necessary expert then sign me up.	4/29/2020 2:36 PM
409	Most of them are dead in the water except for things like OpenStreetMap, Wikipedia editing, etc. I'm taking the opportunity to regroup and reassess exactly when and where I will be volunteering (in person) when things return to normal. It's probably going to be close to the status quo but I am considering other focus areas besides the arts.	4/29/2020 2:36 PM
410	I am now less eager to leave my house	4/29/2020 2:34 PM
411	I don't get out of the house unless for exercise or emergencies so I haven't done any in-person volunteering.	4/29/2020 2:33 PM
412	It hasn't for the most part	4/29/2020 2:28 PM
413	I've been forced to stay at home	4/29/2020 2:26 PM
414	Right now, I'm more cautious with volunteering. I believe that more testing is needed, so those that are infected can know and can get assistance if necessary.	4/29/2020 2:12 PM
415	Sheltering in place	4/29/2020 2:08 PM
416	Some things have been postponed.	4/29/2020 1:59 PM
417	I volunteer in two places: NAM and Hobby Center. Hobby is completely closed for now and NAM isn't using any volunteers, so I have done no volunteer work since late February.	4/29/2020 1:57 PM
418	The group I volunteer with had to stop because we go to hospitals	4/29/2020 1:52 PM
419	No in person contact with people we serve	4/29/2020 1:48 PM
420	Stay Home order has closed everything.	4/29/2020 1:45 PM
421	Knee	4/29/2020 1:45 PM
422	I would like to get more involved.	4/29/2020 1:42 PM
423	Made me less motivated to do them as we are staying in the house but I'm open to virtual opportunities so will begin to seek them out as I adjust to this new normal.	4/29/2020 1:37 PM
424	Because of no childcare I spend all my time taking care of my family at the moment	4/29/2020 1:37 PM
425	I haven't been able to volunteer but would like to.	4/29/2020 1:36 PM
426	They are primarily monetary donations or virtual participation.	4/29/2020 1:34 PM
427	N/A	4/29/2020 1:33 PM
428	I am only volunteering when it includes being outside, not in a building. I normally volunteer at Red Cross shelters. I will not volunteer, right now, inside a shelter.	4/29/2020 1:28 PM
429	My volunteering effort has been halted by mid March. AARP has not instituted yet a method to do taxes remotely.	4/29/2020 12:43 PM
430	Want to help in some way...	4/29/2020 12:40 PM
431	I want to volunteer but haven't been able to find anything	4/29/2020 12:30 PM
432	All three groups with which I volunteer shut down activities. Recently, the church has offered a mask-making opportunity and I will do that.	4/29/2020 11:45 AM
433	It has made me more cautious about opportunities that I consider.	4/29/2020 11:43 AM
434	Social distancing is first and foremost on my mind, and in many volunteer capacities there was no social distancing to be concerned about.	4/29/2020 11:27 AM

Volunteer Impact Amid COVID-19

435	it hasn't really	4/29/2020 11:21 AM
436	I am more aware of oppurtunites,	4/29/2020 11:14 AM
437	I've participated in several short projects rather than leaving my house to volunteer for several hours	4/29/2020 11:04 AM
438	I will be volunteering in Maine going forward. I work at Pope Memorial Humane Society of Knox County there.	4/29/2020 10:36 AM
439	As a high-risk individual, I'm torn between who is more at risk by my involvement with the community - me, or the people I may infect if I'm an asymptomatic carrier? How can anyone know?	4/29/2020 10:21 AM
440	.	4/29/2020 10:20 AM
441	My health is dependent upon having no physical proximity to humans or animals until there is a prophylactic vaccine. It's a short term problem, so we can all volunteer a year from now instead.	4/29/2020 10:16 AM
442	I would like to help more but can't do it in person due to my health issues.	4/29/2020 10:00 AM

444	I stay at home. The pantry I volunteer for has closed since the pandemic	4/29/2020 9:51 AM
445	Have been unable to volunteered	4/29/2020 9:41 AM
446	It has stopped physically we have done remote collections for other organizations	4/29/2020 9:38 AM
447	Completely shut them down	4/29/2020 9:38 AM
448	It has shifted my volunteering efforts by shifting it through online services.	4/29/2020 9:30 AM
449	Greatly limited then. See above for details.	4/29/2020 9:26 AM
450	Has made me more cautious of what services I will volunteer for.	4/29/2020 9:24 AM
451	It is scary leaving my apartment. I want to help but I don't want to put myself or others in an unsafe position.	4/29/2020 9:21 AM
452	I have become deeply involved in one organization.	4/29/2020 9:17 AM
453	It opened my eyes to how limited we are sometimes but with God/Faith and a friend in those moments mean the Entire difference between Going forward or Giving Up...Giving up isn't a Option in my mind though	4/29/2020 9:15 AM
454	It hasn't	4/29/2020 9:14 AM
455	none.	4/29/2020 12:01 AM
456	I volunteer less because I would rather not risk my own health by volunteering in person	4/28/2020 6:28 PM
457	I'm not sure that it has, I'm available to volunteer I just don't search the social media for options. I'm connected to serve people who advised me of situations that may or may not need my help	4/28/2020 5:50 PM
458	Up to this point, it hasn't. When school is over, it increases the likelihood I'll use that time to volunteer, if only a little.	4/28/2020 4:28 PM
459	I would like to dedicate more time to volunteering, whether I'm working or not.	4/28/2020 4:26 PM

792	My volunteering efforts prior were focused outside of opportunities with volunteer houston. Now those opps are no longer available. I looked into volunteering with VH but the opps are all in groups or distributing items at a location. I have not seen where they provide protective gear.	4/20/2020 12:51 PM

815	Have no opportunities	4/20/2020 11:28 AM

830	Besides donating blood, I have not volunteered for anything in person since the pandemic. Part of this is that the special events I used to volunteer for have been cancelled. The main reason though is that I do not feel comfortable volunteering unless I receive clear messaging of all the efforts a location is doing to keep in person volunteers safe.	4/20/2020 11:01 AM
